

Maris-Tech to Present its Miniature Streaming and Recording Video Solutions for Aerospace, Defense, and Security Sectors at Eurosatory 2022

Eurosatory 2022 is a global event for land and airland defense and security taking place in Paris on June 13 through 17, 2022

REHOVOT, Israel, May 24, 2022 (GLOBE NEWSWIRE) -- **Maris-Tech Ltd.** (Nasdaq: MTEK) ("Maris-Tech"), a B2B provider of intelligent video transmission technology, today announced it will attend Eurosatory 2022 – a global event for defense and security to be held in Paris from June 13 through 17, 2022.

Maris-Tech will display at Eurosatory 2022 its latest solution, Jupiter AI – a family of miniature encoding platforms supporting streaming and recording wearable and gun-sight applications.

Jupiter AI will be presented at Stand 461, Hall 6 BA at [Eurosatory 2022](#).

Eurosatory 2022 is an international event and exhibition for land and airland defense and security.

Jupiter AI was built on Halio's powerful AI accelerator as part of Jupiter family of low latency video encoding and decoding platforms designed to manage multiple video channels. Jupiter features intelligent video transmission technologies with high quality video, superior energy efficiency, and miniaturized form. Jupiter AI is ideal for aerospace, defense, and homeland security applications. As with all of Maris-Tech's other solutions, we believe Jupiter AI offers best-in-class SWaP (Size, Weight, and Power), multiple streaming, high video quality, low latency, robust communication capabilities, and is extremely modular and flexible.

"We are proud to present at Eurosatory 2022, one of the most respected platforms in the world for the military and security sectors. We believe our recently launched solution, Jupiter AI, is an advanced, state of the art product for video transmission, while overcoming the challenges the security sector faces," said Israel Bar, CEO of Maris-Tech. "The size of Jupiter AI is a great advantage and therefore we believe it is a game changer for our customers."

About Maris-Tech Ltd.

Maris-Tech is a B2B provider of intelligent video transmission technology, founded by veterans of the Israel technology sector with extensive electrical engineering and imaging experience. Our products are designed to meet the growing demands of commercial and tactical applications, delivering high-performance, compact, low power and low latency solutions to companies worldwide, including leading electro-optical payload, RF datalink and unmanned platform manufacturers as well as defense, HLS, and communication companies. Forward-Looking Statement Disclaimer

This press release contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are intended to be covered by the “safe harbor” created by those sections. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, can generally be identified by the use of forward-looking terms such as “believe,” “expect,” “may,” “should,” “could,” “seek,” “intend,” “plan,” “goal,” “estimate,” “anticipate” or other comparable terms. For example, we are using forward-looking statements when we are discussing the Eurosatory 2022 event to take place in June 2022 and the participation of Maris-Tech at the event and the ability of Jupiter AI to overcome the challenges the security sector faces.. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to successfully market our products and services, including in the United States; the acceptance of our products and services by customers; our continued ability to pay operating costs and ability to meet demand for our products and services; the amount and nature of competition from other security and telecom products and services; the effects of changes in the cybersecurity and telecom markets; our ability to successfully develop new products and services; our success establishing and maintaining collaborative, strategic alliance agreements, licensing and supplier arrangements; our ability to comply with applicable regulations; and the other risks and uncertainties described in the Annual Report on Form 20-F for the year ended December 31, 2021, filed with the SEC and our other filings with the SEC. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.
